PROFESSIONAL SUMMARY

Web developer with 4+ years of professional and freelance experience building and maintaining production websites and web applications. Strongest in JavaScript, React, Node.js, HTML, CSS/SCSS, WordPress, and CMS-driven delivery, with practical experience across design handoff, accessibility, QA, APIs, SEO, performance, and deployment. Seeking junior-to-mid front-end, web developer, React, full-stack web, CMS, or accessibility-focused roles.

CORE COMPETENCIES

React & JavaScript

WordPress & CMS

Responsive UI

WCAG Accessibility

REST APIs

Web QA

SEO & Performance

Vercel Deployment

WORK EXPERIENCE

Vincent Design Inc.

Jan 2023 - Jul 2026

Web Developer

Winnipeg, MB

- Built and maintained responsive production websites and web applications for agency clients across annual reports, Indigenous organizations, non-profits, public information, and e-commerce.
- Developed reusable React and JavaScript components, scalable SCSS and Tailwind styling systems, and data-driven interfaces connected to REST APIs and CMS platforms.
- Partnered directly with designers in Figma to deliver semantic, accessible, responsive, and performant interfaces using WCAG as a working benchmark.
- Owned deployments and hosting through Vercel, WP Engine, and Flywheel, including troubleshooting, content workflows, SEO, and performance improvements.

Freelance

Aug 2021 - Present

Front-End Developer

Winnipeg, MB

- Convert design mockups into responsive, cross-browser applications with React, JavaScript, HTML, and CSS.
- Build reusable component libraries and interactive functionality with AJAX and JSON; debug, refactor, and optimize legacy codebases.

Birchwood Credit Solutions

Nov 2018 - Jul 2021

Special Finance Manager

Winnipeg, MB

- Structured automotive finance deals across all credit tiers and managed documentation from submission to funding in detail-heavy digital systems.

Birchwood Nissan Brandon

Jan 2018 - Nov 2018

Business Development Manager

Brandon, MB

- Managed sales pipelines and CRM lead workflows, strengthening appointment conversion and follow-up discipline.

PROJECTS

DanielDev Portfolio React / Vercel

Personal portfolio presenting production project work, accessibility notes, and case studies.

React, Vite, Tailwind CSS

Puchica E-commerce

Built a custom storefront from an empty repository with reusable components, collection taxonomy, SEO infrastructure, and Shopify Admin API integration.

Shopify Hydrogen, React

TELUS Reconciliation Report Annual report

Built an accessible annual-report experience with client-controlled publishing and data visualizations.

React, headless CMS

Tamalpais Trust Grantmaking

Built a grant-partner directory, interactive map, community-investments showcase, and editor-run publishing workflow.

WordPress, interactive map
