

Daniel Chavez

Full-Stack Web Developer

Winnipeg, MB · 204-721-2248 · dchavez3395@gmail.com

Full-stack developer with 3+ years shipping and maintaining production web apps in a fast-paced agency environment. Strongest in the modern JavaScript stack — React, Node.js, and Express — with solid PHP and CMS depth to back it up. I own projects end to end, from design handoff to deployment, and pair clean, accessible, performant code with AI-assisted workflows (Cursor, Copilot, Claude) to ship faster without cutting corners.

SKILLS & TOOLS

Core Stack JavaScript (ES6+), React.js, Node.js, Express.js, REST APIs, HTML5, SCSS/SASS, Tailwind CSS

Also Proficient PHP, EJS, Blade templating, WordPress (custom themes)

Workflow & Tooling Git & GitHub, Figma handoff, AI-assisted dev (Cursor, Copilot, Claude), responsive & cross-browser development

Deploy & Hosting Vercel, WP Engine, Flywheel

Quality & Standards WCAG accessibility, SEO best practices, site performance optimization, cross-browser testing

WORK EXPERIENCE

Web Developer

Jan 2023 – Jul 2026

Vincent Design Inc. · Winnipeg, Canada

- Built and maintained responsive production websites and web apps, adding interactive features with React and modern JavaScript.
- Designed scalable styling systems with SCSS and Tailwind CSS, and built reusable UI components to speed up delivery across projects.
- Developed and integrated back-end functionality with Node.js and PHP, wiring up REST APIs and dynamic, data-driven interfaces.
- Partnered directly with designers in Figma to translate UI/UX concepts into accessible, performant, WCAG-compliant interfaces.
- Owned deployments and hosting via Vercel, WP Engine, and Flywheel, and optimized sites for performance, security, and SEO.

Front-End Developer (Freelance)

Aug 2021 – Present

Self-employed · Winnipeg, Canada

- Convert design mockups into responsive, cross-browser applications using React, JavaScript, HTML, and CSS.
- Add dynamic functionality with AJAX and JSON, and build reusable component libraries to accelerate client delivery.
- Debug, refactor, and optimize legacy codebases for maintainability and performance.

Special Finance Manager

Nov 2018 – Jul 2021

Birchwood Credit Solutions · Winnipeg, Canada

- Structured automotive finance deals across all credit tiers, managing full F&I responsibilities from submission to funding.
- Worked daily in detail-heavy digital systems like Dealertrack — strong comfort with data, documentation, and process.

Business Development Manager

Jan 2018 – Nov 2018

Birchwood Nissan Brandon · Brandon, Canada

- Managed sales pipelines and CRM lead workflows to improve appointment conversion and follow-up discipline.
